Although, Latino male students are the second largest male ethnic group, compared to their male peers, they have the lowest Bachelors and post-baccalaureate degree completion rates.
Panel Guiding Questions

What are the factors that continue to perpetuate disparities in Latino male students degree completion rates?

How does the COVID-19 pandemic create opportunities for change in educational institutions (e.g. HSIs, CC, & School districts)?

What are some pragmatic questions we can ask or action steps we can take to address ongoing disparities in Latino male students degree completion rates?
