

Join the Texas Education Consortium for Male Students of Color

Through our state-wide Consortium offerings we will increase knowledge and understanding of research-based practices, build a collaboration space for practitioners, reflect on your institution's programs and policies, gain valuable professional development, and offer avenues to expand your work with Male Students of Color.

We are pleased to offer three membership levels for the 2021-22 academic year, one for institutions and two options for individuals. Joining as a member allows you to take advantage of our Exclusive Benefits outlined below.

TEXAS EDUCATION CONSORTIUM for MALE STUDENTS of COLOR

Capacity Building Tools and Activities (CBTA) Suite - Consortium Membership Additional Services

Our CBTA Suite of services are exclusively available to our Consortium Member Institutions and are customizable to meet the needs of your institution at an additional cost, please contact our team for a quote. These services are not available to our Professional and Associate level members.

Capacity Building Tools are resources derived from educational research for institutions to better understand, educate, and inform their campus community about the educational experiences of Male Students of Color.

Capacity Building Activities are grounded in educational research that institutions can use to educate and inform institutional members about the unique needs of Male Students of Color on their campuses.

Instructional Trainings

We help faculty and teachers improve their classroom management and interactions with Male Students of Color. This training includes three two-hour training modules to help faculty and teachers understand the unique learning needs of male students of color. The estimated time for this activity is six hours.

Custom Professional Development Trainings

We provide professional development trainings for staff and administrators to enhance the educational experiences of Male Students of Color. This training includes online modules to help staff and administrators understand the educational needs of male students of color. The estimated time varies based on customization.

Strategic Planning Sessions

We provide an online consultation service with senior-level administrators to assist with institutional strategic planning focused on addressing the social and educational needs of Male Students of Color. The estimated time for this activity is 75 minutes.

Virtual Institutional Site Visit

We provide an online consultation service with senior-level administrators to assist with institutional strategic planning focused on addressing the social and educational needs of Male Students of Color. The estimated time for this activity is 75 minutes.

Men of Color Mentoring Program

We provide a program structure, training, and support to a partner ISD and a Higher Ed member to implement a near-peer mentoring program centered on Male Students of Color. The program includes a training & mentoring curriculum, assessment tools, service learning course development, and support for one year.

Custom Surveys

We administer different types of survey instruments to collect data from faculty, student affairs, academic affairs, or Male Students of Color. The estimated time for this tool is approximately six months to create, distribute, analyze, and write a final report.
